VOLUME CVII.--NO. 243. ALEXANDRIA, VA., TUESDAY EVENING, OCTOBER 9, 1906. PRICE 2 CENTS.

Nature's Way Is Best.

The function strengthening and tissue building plan of treating chronic, lingering and obstinate cases of disease as pursued by Dr. Pierce, is following after Nature's plan of restoring health.

He uses natural remedies, that is extracts from native medicinal roots, prepared by processes wrought out by the expenditure of much time and money, without the use of alcohol, and by skillful combination in just the right proportions.

Used as ingredients of Dr. Pierce's Golden Medical Discovery, Black Cherry-bark, Queen's root, Golden Seal root, Bloodroot and Stone root, specially exert their influence in cases of lung, bronchial and throat troubles, and this "Discovery" is, therefore, a sovereign remedy for bronchitis, laryngitis, chronic coughs, catarrh and kindred ailments.

The above native roots also have the strongest possible endorsement from the leading medical writers, of all the several schools of practice, for the cure not only of the diseases named above but also for indigestion, torpor of liver, or biliousness, obstinate constipation, kidney and bladder troubles and catarrh, no matter where located.

You don't have to take Dr. Pierce's say-so alone as to this; what he claims for his "Discovery" is backed up by the writings of the most eminent men in the medical profession. A request by postal card or letter, addressed to Dr. R. V. Pierce, Buffalo, N. Y., for a little book of extracts from eminent medical authorities endorsing the ingredients of his medicines, will bring a little book *free* that is worthy of your attention if needing a good, safe, reliable remedy *of known composition* for the cure of almost any old chronic, or lingering malady.

Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic.

The most valuable book for both men and women is Dr. Pierce's Common Sense Medical Adviser. A splendid 1008-page volume, with engravings and colored plates. A copy, paper-covered, will be sent to anyone sending 21 cents in one-cent stamps, to pay the cost of mailing *only*, to Dr. R. V. Pierce, Buffalo, N. Y. Cloth-bound, 31 stamps.

The Late Wm. K. Ryan.

As was stated in the Gazette, Wm. K. Ryan, 33 years old, son of Mr. Thomas F. Ryan, the New York financier, died very suddenly Sunday afternoon at his country home, Oakridge, in Nelson county. Mr. Ryan had been a sufferer from tuberculosis for several years, and Sunday while sitting on one of the verandas of his home he was stricken with a hemorrhage. In three minutes he was dead. He is survived by his widow and three small boys, the youngest of whom is but 4 months old.

Mr. Ryan had been living at Oakridge since early in the summer, going there with the intention of making it his permanent home, hoping that an outdoor life would benefit his health. He greatly endeared himself to the people of the county by his public spirit. Last summer he gave a barbecue to the people of the county, some 5,000 persons being present. His body has been taken to New York for interment.

In a vain effort to reach his dying son Mr. Thomas F. Ryan chartered a special train at Philadelphia Sunday morning and had it driven at a record-breaking pace over the Pennsylvania road to Washington.

Finding that he had just missed a regular train Mr. Ryan hired a coach and a locomotive of the highest power. Although the special lost nine minutes because the engineer drove too near an express ahead, the run from Broad street station Philadelphia, to Washington, a distance of 137 miles, was made in 137 minutes elapsed time, or a net time of 128 minutes.

William K. Ryan's estate, which will amount, it is said, to several millions, goes to his widow and his three sons, the youngest having been born in July of this year in Virginia.

Five years ago Mr. Ryan was quietly married to Mrs. Lily Henry, a young widow who had been one of the four beautiful Benduram girls, belles of Louisville, Ky., He fitted up fine apartments for his bride in the Dakota at 1 Central Park west, New York, and there in September last their first child was born. While this child was still very young the the father fell ill of pneumonia and came near dying. He finally recovered, but tuberculosis had set in. In the early spring of the following year young Mr. Ryan was compelled through ill health to resign as treasurer and director of the New York Transportation Company and close his offices in Wall street, where he had been prominent as one of the younger set of brokers.

Fears Great Race War.

Fearing a general war in the event of the capture of Charles Cullum and Lewis Styles, negroes, who are accused of precipitating disorders Saturday night in Little Rock, Ark., in which one man was killed, three wounded and several buildings destroyed by incendiaries, Governor Davis, at the request of the Sheriff, yesterday called out the militia to prevent further rioting.

H. Blackburn, the negro who was lynched Sunday night about 10 o'clock at the corner of Sixth and Main streets, in Argents, Ark., by four masked men, is not believed to have been the person wanted.

The free bridge between Little Rock and Argenta was coverd with negroes Sunday night. Fully 800 deserted their homes and yesterday morning went to Little Rock. The leaders stated that they were afraid to remain in Argenta for fear of another outbreak.

Coroner Vaughter held an inquest over the body of John Lindsay, who was killed in Argenta Saturday night, and a verdict was returned that he met his death at the hands of Garrett and Charles Cullum and Lewis Styles, negroes. Milton Lindsay, his son, who was shot at the same time, is still alive. Mobs burned the homes of the Cullums and Styles, but the negroes, who had barricaded themselves therein, escaped.

James Mahoney, a contractor, and L. Belding, a newspaper reporter, were fired on from four different quarters with shotguns. Mahoney was painfully injured in the hand. Belding's clothes were peppered with birdshot, but none entered his body.

Human Blood Marks.

A tale of horror was told by marks of human blood in the home of J. W. Williams, a well known merchant of Bac, Ky., He writes: "Twenty years ago I had severe hemorrhages of the lungs, and was near death when I began taking Dr. King's New Discovery. It completely cured me and I have remained well ever since." It cures Hemmorhages, Chronic Coughs, Settled Colds and Bronchitis, and is the only known cure for Weak Lungs. Every bottle guaranteed by E. S. Leadbeater & Sons, Druggists 50c and $1.00. Trial bottle free.

All the good qualities of Ely's Cream Balm, solid, are found in Liquid Cream Balm, which is intended for use in atomizers. That it is an unfailing cure for Nasal Catarrh is proved by an ever-increasing mass of testimony. It does not dry out nor rasp the tender air-passages. It allays the inflamation and goes straight to the root of the disease. Obstinate old cases have been cured in a few weeks. All druggists, 75c., including spraying tube, or mailed by Ely's Bros., 56 Warren Street, New York.

FOR OVER SIXTY YEARS

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

Arrest of Alleged Black Hands.

Vinbones Voios, an Italian, was arrested in Newcastle, Del., yesterday, accused of being one of two alleged Italian Black Hands who, at midnight Sunday night, mortally wounded Peteo Romeo, of Buffalo, N. Y., at Newcastle Junction. Romeo is still living, but his death is soon expected at the hospital.

Years ago, he says, he was chief of police in his native town in Italy, when he killed a young malefactor who was escaping arrest. The dead criminal, it is said, was a Black Hand member, and that organization pursued him so bitterly that he came to this country, settling at Buffalo, where his family now live.

Recently Italians interested him in a supposed business venture in Newcastle and he arrived Sunday night, by way of Youngstown, being met at Newcastle Junction by the two men who, he says, were Rocco Exposito and Vinboes Voios. They explained it was necessary to walk along the tracks to West Pittsburg. Half a mile away they shot him four times in the face and neck, throwing him over the tracks for dead. Several Italians were yesterday arrested by the police on suspicion and all refuse to talk.

JEWELRY.

Going Housekeeping?

If so, you can hardly get along without spoons, knives and forks. The silver-plated are without a doubt the most economical in the end. They wear longer, look better and cost very little more than the ordinary kinds. We can even supply silver-plated knives with steel blades.

Your sideboard is hardly complete without a silver set. Silver cake and fruit baskets should also be placed there.

A candelabra with will brighten the table considerably. After the spread has been cleared off a silver fern dish should be placed on the table.

The necessary things in cut-glass are the decanter, the berry bowl and the celery dish. In a great many homes the ice cream is served on cut glass plates.

On your dresser place a traveling alarm clock and a sterling silver or silver-plated toilet set, also a hat and clothes brush.

You will find plenty use of a number of small silver-plated trays. One has always so many trinkets to take care of.

There should be a jewel case on the dresser, if only for appearance sake. Over night it is a good place to keep the watch and Z—K Gold Chain.

SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

TUESDAY EVENING, OCT. 9, 1906.

IT WILL be a large sum of money that Cuba will have to pay for the service which this government is now rendering her in the restoration of internal order. At the lowest estimate it is $25,000 a day and it is not likely to grow less. Unless the Cubans co-operate better with the intervening government than they are doing now, it is said Americans will be sent there to hold some of the minor offices, and Americans in offices down in Cuba have proved to be about as costly investments as the insular folk have ever made. Even Maj. Rathbone and the other members of the Postoffice Department were less expensive than army officers performing civil functions. As Governor of the island Mr. Magoon will do a trifle better than Gen. Leonard Wood. He is to receive $25,000 a year, the same compensation allowed President Palma. Gen. Wood almost equaled this sum. He received $15,000 as Governor in addition to his pay of $7,500 and allowance as a major general of volunteers. The fact that Cuba will have to pay for American intervention was indicated clearly when Secretary Root expounded the law status of the intervening Government. He held that under the appendix to the constitution commonly known as the Platt amendment the Taft government is but another form of the one set up in the first place by the constitution, and it follows that the Cuban Treasury must audit and pay the bills.

WASHINGTON, it is said, is very curious to know of what Secretaries Taft and Bacon were thinking when they sent for their wives to come to Cuba. It is known that President Roosevelt was astonished when informed that Mesdames Taft and Bacon were going to Havana and that, apparently, the two secretaries were under the impression that they were due to spend a winter in the Cuban capital, one of the most delightful spots on the globe during the cold season. He had not been advised that his pacification commissioners had bidden their wives to come. He was told what the secretaries had done just after he had finished saying that he hoped to have Taft back into Washington in less than three weeks. Thanks to the luxurious tastes of General Leonard Wood and Major E. G. Rathbone, the official residences at Havana are in fine shape for occupation by Americans.

FROM MANY points in the South and extending into the West and North come reports of racial troubles, nearly all of them due to the misdeeds of the colored men. Feeling is running high, so that trifling acts are magnified into affairs that mobs believe can be punished only by lynchings. Following the mob justice meted out to two negroes Saturday in Mobile, there was another summary hanging Sunday at Argenta, Ark., where there was trouble on Saturday, and still another at Basin, Miss., where a negro had assaulted a white woman. Beside this there was an attempt to take from jail a negro culprit at Macon, Ga., another at Bloomington, Ind., and a third at Columbia, S. C. Near Lexington, N. C., a mob is pursuing a negro who without provocation killed a railroad foreman.

SECRETATY SHAW in an interview in Cincinnati on Sunday night said:

We are in no danger whatever of losing the national House of Representatives. The democrats have lost all hopes of carrying it since Mr. Bryan made his New York speech advocating government ownership of railroads. That has destroyed all their chances of success for years to come, and they will have to look about for new issues and new men. Bryan and Hearst are all the party has left in presidential timber, and more's the pity, for I like to see strong men in the opposition. Senator Bailey and John Sharp Williams are the only conspicuous figures in the South, and they are impossible.

Alas, it is feared that what Secretary Shaw said is too true.

AN APPEAL issued by Bishop Alexander Waters, president of the National Afro-American Council, to all the colored churches in the land to observe Sunday last as a day of prayer resulted in many sermons that dealt with the race problem. The Bishop himself, speaking in New York, declared that the recent race riots in the South had given evidence that the whites were trying to degrade and destroy 10,000,000 American citizens. He advised the race to rise in their own defense. Such advice is calculated to get those who follow it into trouble.

IF THE republicans elect the majority of the next Congress, they will, it is said, revise the tariff by making a maximum rate 25 per cent. higher than the present rates. This maximum rate will apply to imports from those countries like Germany which also have maximum rates to enforce against those countries that do not negotiate reciprocity treaties with them. Such a tariff war would reduce our exports to the minimum and our producers, especially the farmers, would suffer accordingly.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, Oct. 9.

President Roosevelt took a bird's eye view of the congressional election situation in the west today through conferences he had with Vice Chairman Tawney, of the republican congressional committee; Senator Carter, of Montana, and Senator Hopkins, of Illinois. "We will carry one district in Arkansas I told the President," said Mr. Tawney as he left the White House. He wouldn't say which one. He calculates that the republicans may lose one district in Missouri and gain one. Nine members will be returned from Minnesota, Mr. Tawney said, and a republican governor will be elected in that State. He predicted that factional differences in Iowa will not be carried into the congressional election. "We stand to loose three districts in Pennsylvania, and Representatives Smyser, Campbell and Mouser may have a hard time to pull through in Ohio he admitted. Senator Carter told the President that the republicans will carry Montana. Senator Hopkins predicted that the republican majority, on account of the division among the democrats, will equal that of two years ago. "We may lose one or two congressional districts in Chicago," said he upon leaving.

The first business session of the convention of the National Wholesale Druggists' Association met at the New Willard this morning. President Lucien B. Hall, of Cleveland, Ohio, made an appeal in his annual address for clean business methods in the trade. He especially condemned the inferior drug concerns who made it possible for fraudulent patent drug companies to exist. The reports of the different committees and officers were read and the afternoon session was taken up by reports of special committees.

Leave to file a demurrer to the complaint in the case of Virginia vs. West Virginia involving responsibility for the payment of the debt of the former State was granted counsel for West Virginia today by the Supreme Court of the United States. Chief Justice Fuller stated that the court would take under consideration a further motion to set the first Monday of March for a hearing on the demurrer.

Answering a protest against the performance of "The Clansman" in this city, Commissioner Macfarland concluded a letter to Rev. W. P. Thirkield, colored as follows: "I do not believe, however, that the people of Washington will be stirred to riot by it or any other play. They are not that kind of people."

It is again reported that Wm. R Hearst is to start a paper in Washington. Yesterday the Patent Office granted him trade mark rights on the names "Journal" and "American" in a score or more large cities including Cleveland, St. Louis and Washington.

On account of the constitutional questions involved, the Supreme Court of the United States today postponed hearing of the Kansas-Colorado irrigation case until the President shall have appointed a successor to Justice Brown, and has thus obviated the possibility of a tie vote.

The Civil Service Commission has decided to refrain from interfering at present with the game of politics as played by federal officeholders, even though reams of charges are filed against them before election day. After the elections are over and the "pernicious activity" has subsided, the commission will act. The reason assigned for postponing the investigation is that any decision now would be charged to partisan feeling by those on the losing side. Among the charges already filed that will go over until after election day are those of Senator Simmons, of North Carolina, and of Assemblyman Winters, of New York, both against federal officeholders in their respective states.

The twenty-sixth annual meeting of the Old-time Telegraphers and Historical Association met this morning at the Arlington Hotel. President Young read his annual address. The treasurer's report showed that the association had a balance at the end of the fiscal year of $1,042.42. The secretary's report showed a net membership of 1442.

By unanimous vote, the encampment of the United Spanish War Veterans this morning ratified the agreement of amalgamation with the 40 camps of the Legion of Spanish War Vets, of Massachusetts and New Hampshire. The membership of the legion is about 4,500 men, which will make the total membership of the organization about 50,000.

Three complaints, charging unjust discrimination, were filed with the Interstate Commerce Commission today, one against the U. S. Express Company, one against the B. & O. and the Norfolk and Western and one against the Philadelphia, Baltimore and Washington Railroad Company.

Russian Affairs.

Helsingfors, Oct. 9.—The conservative wing of the constitutional party has won a victory in the convention of the organization now in session here. Under the direction of this faction, however, the party has virtually backed down from its position against the government, and it is predicted that by doing so it has greatly weakened its cause.

In principle the Viborg manifesto, signed by the members of the Douma who held an illegal session at Viborg after the Czar had dissolved the lawmaking body, is approved, but all force is taken from this declaration by the other actions of the convention. The programme of passive resistance to the government and the refusal to furnish men for the army are both sidetracked. The time is not ripe to interfere with conscription, the Congress asserts. For the same reason the party will not attempt to induce the people to refuse longer to pay taxes.

In the future it was decided to devote the efforts of the party to win the coming election and to enlarging the powers of the Douma.

St. Petersburg, Oct. 9.—The constitutional democratic party has sounded its own death knell by the action of its national convention at Helsingfors in backing down from its former position of strong opposition to the government. This is the general opinion of all classes.

Government circles are highly elated over the action of the convention. By giving the constitutional democrats enough rope, it is asserted, they have hanged themselves.

One effect of the backdown of the opposition party has already been made apparent in an offer which is reported to have been made to the government by a foreign syndicate of a loan of $600,000,000. This loan is conditioned on the Douma not being summoned to meet for two years.

Charged with Attempted Assault.

Clarksburg, W. Va., Oct. 9.—George Frash, a well known barber of this place, is under arrest charged with attempted rape upon a young lady he was out driving with last night. The girl jumped from the buggy and was rescued by tin plate workers and later sent home. Frash drove back to the city and was arrested later.

First Snow on Mount Washington.

Concord, N. H., Oct. 9.—Nearly a month later than usual the first snow of the season appeared today on Mount Washington. The white cap is plainly visible as far away as the coast.

News of the Day.

George B. Harris, who deserted his family in Bethlehem, Pa., committed suicide yesterday because his wife would not take him back.

A multi-millionaire baby girl, one of the richest in America, was born to Mr. and Mrs. Edward D. Brandegee at their magnificent Brookline estate, "Faulkener Farm," near Boston yesterday. Mrs. Brandegee has a private fortune of $15,000,000, and her husband is also a millionaire.

The railroads running into Washington expect to open and use the new Union station next June. C. B. Hunt, engineer of highways in the District of Columbia says that the First street tunnel to be used by the Pennsylvania Railroad was completed in September, and trucks will be ready by the last of December and the masonry walls will also be completed by the same time. The plaza about the new station and adjacent streets will be completely finished by June.

Governor Taft proposes to issue an amnesty decree in Cuba soon as factional bitterness in Cienfuegos has been smoothed over. Twelve hundred more troops for Cuba have sailed from Newport News on the transports Niagara and Monterey. The Fourteenth battery and the pack train from Fort Oglethorpe has sailed from Tampa. The battleships Indiana and Kentucky have been ordered to rejoin the Atlantic fleet off the coast of Massachusetts. Governor Taft and Mr. Bacon have taken up their residence in the palace at Havana. The disbandment of both volunteers and rebels in all provinces except Santa Clara has been completed.

Mother Stabs Child.

With the gates of the land of promise closed against her, Mrs. Mary Magnit, a pretty young Austrian woman, stabbed her eight-year-old daughter Mary at Ellis Island, New York, perhaps fatally, and it is supposed intended to kill herself. Mrs. Magnit and her daughter came on the steamer Caronia last Tuesday. They traveled in the second cabin. When Ellis Island officials boarded the ship they learned that Mrs. Magnit was an invalid and, despite her protests, she was taken to Ellis Island to await investigation.

In due time the board decided that Mrs. Magnit was too infirm to be admitted and she was ordered deported on the Caronia today. When the decision was communicated to Mrs. Magnit on Saturday she became violent. The doctors were unable to quiet her and she was placed in a room under guard.

The frantic mother cried continuously for her child and, to pacify her, the little girl was finally admitted to the room. Mrs. Magnit immediately became quiet. An hour later the child's cry aroused the building, and it was found the mother's quietness was only the cunning of a lunatic. When the attendants reached the room they found the mother standing over the child plunging a knife in the little one's side. Mrs. Magnit fought desperately, declaring she would end the child's misery and her own. The woman was placed in a straightjacket. The child is in a precarious condition.

Strikers Killed by Police.

Two men were killed and a dozen wounded in a conflict between striking mill hands and provincial police at MacLaren's saw mills at Buckingham, Quebec, yesterday afternoon. The drastic measures taken by the authorities to quell the riotous strikers has had a telling effect, and no further trouble is expected. The dead are: President Belanger, of the Mill Workers' Union and leader of the strikers, and Xavier Therieu, a mill hand. The first rush was met by a volley from the police. Belanger, who was leading the mob, fell, with two bullets in his head. The strikers sought shelter and opened fire on the police, many of whom were hit. A desultory fusilade was kept up for fifteen minutes, when, apparently by mutual consent, hostilities were suspended while both sides removed their wounded. Appeal was sent to Ottawa for troops. They arrived last night and went into camp in the lumber yards. Five of the wounded men are in a serious condition. The strike at the mills began on September 15. The workmen's strike fund and their small savings had vanished, and they had begun to feel the pinch of hunger and cold. About the middle of the afternoon a mob of 200 men, armed with revolvers, rushed up the hill leading to the mills. The mill owners had posted forty detectives and special policemen on the outskirts of their property.

Saw Murder in Dream.

Omaha, Neb., Oct. 9.—Miss Mary Lippardt, of this city, dreamed Saturday night that her room-mate, Miss Josephine Rummelhart, had been murdered. When she picked up a paper next morning, the first thing that caught her eye was the story of the murder of Miss Rummelhart by a negro the night before. "She is being murdered! Josephine Rummelhart is being murdered!" cried Miss Lippardt in her dream so loudly as to awaken everybody else in the house. "What has happened?" she was asked. "Oh, I dreamed that Josephine Rummelhart was being murdered," she cried. Within half an hour of the dream a negro knocked Miss Rummelhart senseless with a club near her boarding house, dragged her into an alley, cut her throat, mutilated her almost beyond recognition and escaped. Miss Rummelhart died in a few hours.

Doctors Fight for Dying Man.

New York, Oct. 9.—While a man lay dying in an ambulance in Pell street, in the Chinese quarter yesterday with three bullet wounds in his back, surgeons from two hospitals struggled to secure possession of him. Several of the dying man's friends took a hand in the affair, when the argument was at its height, and when the ambulance started to drive away some one seized the wounded man and dragged him nearly out of the ambulance. Policemen scattered the crowd and directed the removal of the wounded man to a hospital without an instant's delay.

Little Girl Kidnapped.

Buffalo, N. Y., Oct. 9.—Louise Becker, a three-year-old daughter of Frederick Becker, was kidnapped by a woman late yesterday afternoon near the child's home. Today every policeman and detective in Buffalo is searching for a trace of the woman, but so far they have been completely baffled in their efforts.

Southern Railway freight train No. 83 was wrecked yesterday afternoon at Dry Fork, near Danville, and 12 cars left the rails. Wrecking crews were sent out from Danville and Monroe, and the track was soon cleared. Conductor Davidson was injured about the back, and a flagman whose name is not known was hurt about the head.

R. F. Morris, a young white man, was found dead at the side of the tracks of the Richmond, Fredericksburg and Potomac Railroad, near Acca, last night. Developments lead to the suspicion of foul play. Morris was a member of Fitzhugh Lodge No. 93 of Odd Fellows. He was a brother of C. M. Morris, ticket agent for the Chesapeake and Ohio in Richmond.

At Manassas on Saturday, Montgomery Nickens, a negro youth, about fifteen years old, accidentally shot and instantly killed Walter Ball, colored, aged about the same. The two boys, together with Wellington Meredith, also colored, had slept in the hay loft of Dr. J. C. Meredith. Nickens was the first to awaken, and was handling the gun which was accidentally discharged into the face of Ball at very close range and while he was still sleeping. Ball's face was literally blown off.

Thursday night of this week will probably witness the departure from Newport News, Va., of the last detachment of the army constituting the first expeditionary brigade for Cuban occupation. By Sunday night, at the latest, it is declared at the War Department, the entire expedition, consisting of 5,620 officers and men will have landed in Cuba. In order that the War Department may be in readiness to meet any emergency, however, active preparations have already been made by the army general staff for the embarkation for Cuba of a second expedition. These troops will not be sent unless the first army meets with some unlooked for obstacle, and Secretary Taft or Governor Magoon calls for additional forces.

Gambling Houses Closed.

Forty years of gambling came to a spectacular end in Hot Springs, Ark., yesterday, when the City Improvement Union of 500 citizens closed 30 gambling rooms and gave a lot of gamesters a few hours to leave the city. Disgusted by the continued evasion of their duty by the sworn officers of the law, 23 executives of the union, known as the "skidoo committee," Sunday night issued a final warning, both to the recalcitrant officials and to the gamblers that the rooms must be closed at once.

No heed was paid to the warning, and yesterday the entire membership of the union, headed by a brass band, marched to the city hall, police headquarters and courthouse, and forced State, county and city officials to raid and close the gambling-houses forthwith, the 500 going along to see that it was done properly. To the roll of drums and blare of trumpets playing patriotic airs such gamblers as were found were marched to Union station and ordered to take the first train out and return no more. Five hundred gamblers, cappers and women left yesterday and last night, and fully $500,000 worth of paraphernalia is boxed for shipment.

The coroner's jury at Bristol, Pa., today, in the case of the Pennsylvania Railroad wreck, near here, over a week ago decided that the company was blameless.

Sevenmore indictments were presented by the federal grand jury today in the United States Circuit Court of New York in connection with the rebates allowed by railroads to sugar trust.

Trial of Dr. Brouwer.

Toms River, N. J., Oct. 9.—Sensations without number are looked for today by the prosecution and defense when the taking of evidence in the trial of Dr. Frank Brouwer for the murder of his wife is commenced. Each side made the claim that it has evidence at hand which will leave the opposition hopelessly stranded.

Just how soon the sensations will be developed remains to be seen. The early witnesses called today were unimportant, their statements relating merely to the death and burial of Mrs. Brouwer.

One of the sensations which the prosecution promises to offer is proof that the arsenic found in Mrs. Brouwer's stomach could not have reached there from the fluid used in embalming her body. Undertaker Westhall, who embalmed the body, has been relied upon by the defense to offer such an explanation. If he does, prosecutor Brown says he can upset the contention.

Brouwer expressed confidence that he will be set free before Sunday. He asserted his prosecution has been engineered by his wife's relatives. He never could agree with them, he asserted, and they were made particularly angry because his wife left no will whereby the little property she possessed would have gone to them.

Various reports have been circulated as to the line of defence Brouwer's attorneys will set up. One story was to the effect that efforts would be made to show the woman committed suicide but this was promptly denied by Brouwer's lawyers. That the woman died naturally will probably be asserted by the defense.

The presence of glass in the stomach, as claimed by the prosecution, will be easily accounted for according to Brouwer's supporters. After Mrs. Brouwer's body was exhumed the viscera were placed in a glass jar. The rim of this glass was splintered, it is asserted, when the metal cap was being screwed on, the glass falling inside. The defense is understood to be prepared to offer the splintered glass jar in evidence in support of this contention. Brouwer himself will take an active part in proving his innocence to the jury, it is said, today. It is reported that he will go on the stand in his own defense and by his statement clear up the shady mystery which the prosecution intends to throw about the relations of the doctor and his wife. Brouwer believes when the jury hears him acquittal is bound to follow.

Dr. Henry Cattell, of the University of Pennsylvania, told of making an autopsy at Lakewood, December 2, 1905. Dr. Cattell said the body was in good condition. In his opinion the cause of death could not have been an ordinary disease. The stomach and intestines were inflamed. There was also a change from normal in the secretive organs, the kidneys and liver etc., which he examined miscroscopically. These examinations showed no disease that might have caused death. Dr. Brouwer was keenly interested in the medical examination testimony and frequently made suggestions to his counsel.

The New York Campaign.

New York, Oct. 9.—"This is going to be a campaign of investigation," was a statement made at republican State headquarters last night. Charles E. Hughes has turned his talents as an inquisitor upon the affairs of his opponent, William R. Hearst. Saturday night he charged that the Hearst newspaper corporations made it difficult, if not impossible, to get damages for libel. Last night he declared that the Hearst corporations dodged their taxes.

Likelihood of an open breach between Hearst and Tammany is said to have been obviated by William J. Connors, chairman of the State committee, who will be closely associated with his candidate for the balance of the campaign. In Brooklyn and Buffalo, however, an open fight between independence leaguers and democrats can scarcely be avoided.

The full weight of the national administration will be thrown to Hughes. Speaking dates have already been set for Secretary Root and Speaker Cannon. It is also possible that William H. Taft will be introduced into the campaign toward its close.

Wall street men who bet on elections are still a good deal at sea, and there is not yet much real money in sight. A pretty heavy democratic drift to Hughes is admitted, but there is a certain amount of republican drift to Hearst, which must be taken into account.

Missing Boy Found.

New York, Oct. 9.—William Labarbara, the four-year-old son of Franc's Labarbara, for whom the whole police force of Greater New York has been searching since his supposed kidnapping, September 21, was found at an early hour today and restored to his parents, one of whom, the mother, had become nearly distracted over the continued absence of her child. Late last night word was received that the child was at the Children's Society, 105 Schermerhorn street, Brooklyn. Detective Petrocini hurried to the institution and after identifying the boy, brought him to the Manhattan police headquarters, where the parents were awaiting him. The boy was discovered at the Brooklyn end of the Brooklyn bridge last Saturday by Ernesto O'Conner. The little fellow was wandering aimlessly about and attracted the attention of Mr. O'Connor who turned him over to the members of the bridge police squad. Where he has been the boy cannot tell. He is even unable to give a description of his kidnappers. From all appearances, however, he has not been maltreated by those who had him in charge.

Gale on Lake Erie.

Buffalo, N. Y., Oct 9.—One of the fiercest gales that ever came off Lake Erie struck Buffalo last night, finishing off today with a downpour of rain and a stiff breeze. Nearly everything portable was blown out of position. The entire city was in darkness the greater part of the night, the storm putting the electric wires out of commission. Houses were shaken as the blasts of wind were hurled against them, causing great fright in many homes. There were grave fears that a hurricane was beginning its destruction. The full effect of the storm has not yet been counted, but great damage has been done. Much fear is felt for the safety of lake vessels caught in the storm off inland ports. It is understood that several vessels off Buffalo are in distress.

New York Stock Market.

New York, Oct. 9.—The stock market was generally strong all though the first hour. Pennsylvania was a feature, advancing 1 7-8 on statements of an advance in the dividend rate. There was aggressive buying by inside interests again.

Many a man of humane impulses, who would not willingly harm a kitten, is guilty of cruelty where his own stomach is concerned. Overdriven overworked, when what it needs is something that will digest the food eaten and help the stomach to recuperate. Something like Kodol For Dyspepsia that is sold by W. F. Creighton & Co., 401 King street.

Prohibit Shipment of Explosives.

Havana, Oct. 9.—Great significance is attached to a rule just adopted by the provisional government prohibiting the shipping of explosives away from the government depositaries, showing that despite the optimistic declarations made by the authorities they fear the situation is full of danger.

All explosives of which the government has official knowledge are stored in the government storehouses. Permission has been sought in a number of cases by men engaged in mining and excavation to remove their stocks to the scene of operations. All such requests have been refused, however.

The provisional authorities appreciate too thoroughly the amount of damage which could be wrought in a short time if dissatisfied men chose to use dynamite or other explosives to destroy property instead of for blasting.

Mining operations throughout the country have come to an end as a result of this ruling, and building will be interrupted to a minor extent.

Governor Taft and his associates believe it is better that this should occur than that any risk should be run of allowing rebellious Cubans to get their hands on the explosive.

It is the understanding here that this rule will continue in existence until the island has been adequately policed under the supervision of the American officials.

Gov. Taft was informed today that all the insurgents in Santiago province have been disarmed except one band which is encamped at a point difficult to approach. Orders have been issued for the disarmament commissioners to find this band and secure the arms of its members.

Knights of Pythias at New Orleans.

New Orleans, Oct. 9.—Fifty thousand Pythian Knights, with a probability of a total of 100,000 visitors, will assemble in New Orleans from Oct. 15 to 25 to celebrate the Biennial Conclave of the Supreme Lodge of the order. Preparations on an immense scale have been made for the housing and entertainment of guests and a veritable Tenten White City has gone up at historic City Park where from 2,500 to 5,000 Knights may find cots at a cost of 50 cents for the entire period, while a hotel and accomodation bureau has been opened, through which rooms in the city may be obtained from $1 a day up. All railroads have presented a rate of one fare for the round trip, plus 25 cents. The present Conclave bids to be most spectacular and interesting in the history of the order. There will be immense uniformed parades and cash prizes aggregating $10,000 have been put up for the best drilled organizations of infantry, cavalry and artillery participating. There also will be a parade of the uniformed Knights and their ladies and what with these, the banquets, the sight seeing, the theatres, the river excursions for the general attendance and the ritualistic exercises for the commanderies and the sessions of the Supreme Lodge, the Knights and those who assemble in New Orleans will have diversion and instruction to spare. The city already has begun decorating for the occasion and on the opening day Canal and all the business streets will be a mass of Pythian colors by day and dazzling light by night.

Sultan Shot by a Woman?

Paris, Oct. 9.—The real secret of the recent illness of Sultan Abdul Hamid, of Turkey, was that he was shot in the abdomen. This is the report received by the Petit Parisiene from its correspondent at Constantinople. The news came through in mail dispatches, it being impossible to send such a story over the wires out of Turkey. According to the special, the would-be assassin of the Turkish ruler was a woman who was jealous of a beautiful Circassian girl who had supplanted her in the affections of the Sultan. Forcing her way into the Sultan's room she shot him. A German physician was summoned to treat Abdul and extracted the bullet. The operation was performed without an anaesthetic being administered, as the Sultan opposed this. He is now recovering from the effects of the injury.

Ohio vs. Standard Oil Company.

Findlay, O., Oct. 9.—The battle between the State of Ohio and the Standard Oil Company is on in the probate court of this county. The final result of the issue will determine whether a gigantic powerful corporation will continue to monopolize the oil industry in Ohio; dictate the prices of the production, and the refined article, or whether the small producer will have a free and open market and the refiner a fighting chance in competition. The prosecution, strengthened by its victory in skirmishes and entrenches behind evidence procured by months of arduous toil, is confident. The defense, vigilant and crafty, maintains a grim silence that cannot be broken.

Bones of Prehistoric Animals.

Roanoke, Va., Oct. 9.—Workmen in excavating for a new frogshop of the Norfolk and Western Railway at Roanoke yesterday discovered the bones of a mammoth prehistoric animal. The officials had the place barred up until preparations can be made for properly getting out the bones. Several years ago bones of an extinct animal were found near Blue Ridge Springs, and other finds have been made in this section, many of them being now in the Smithsonian Institution and other museums.

Body of Young Woman Found.

Jersey City, N. J., Oct. 9.—Boatmen this morning found the body of Flamini Gioconda, about 22 years old, in the North river and towed it to the Jersey Central terminal at Communipaw. The clothing contained an immigrant inspection card, dated September 12 last and showing that she came from Genoa. In all probability the young woman was accidentally pushed overboard while being transferred from the Ellis Island emigrant station to the railroad terminals in Jersey City.

More Trouble Feared.

Buckingham, Quebec, Oct. 9.—Troops are patrolling the streets here today and there is a strong guard over the plant of the McLaren Lumber Company, which was the scene of yesterday's fight between strikers and detectives in which two strikers were killed and half a score of officers were wounded. Quiet prevailed today owing to the presence of the militiamen from Ottawa, with a rapid fire gun. If an attempt is made to start the mills it will be almost impossible to prevent another fight.

The Baseball Championship.

Chicago, Oct 9.—Before an insanely enthusiastic crowd which will probably number 25,000 or more the White Sox and the Cubs will clash at 2:30 o'clock this afternoon in the first of the post season series for the world's baseball championship. This is also "Chicago Day," but this fact has practically been forgotten by the thousands of fans who are talking nothing but baseball. A remarkable rush for seats has been on ever since the Sox snatched the pennant of the American League. Two thousand box seats for the first three games have already been sold. Every train brings visitors to witness the series. For the first time in the history of baseball a city council has passed resolutions congratulating pennant winners. This action was taken last night by the Chicago Aldermen at the regular weekly meeting. Last year an event of this kind did not fall on Chicago Day, so Mayor Dunne saw no reason why city employes should not work. But there is this year a vastly different occasion. There will be no work done to day. The council said so last night.

Al. Adams Declared a Suicide.

New York, Oct. 9.—The jury before Coroner Harburger after listening to half a dozen witnesses today returned a verdict that "Al" Adams, the policy king, had come to his death from self-inflicted pistol wound. The inquest was one of the most turbulent ever held in the local coroner's office. It opened with a windy tilt between Coroner Harburger and Dr. W. E. D. Stokes, the hotel proprietor, in which Adams had apartments. Mr. Stokes called the coroner a "dirty little cur," and Harburger, besides himself with rage, called Mr. Stokes a "millionaire crook," and intimated that he was responsible for the death of Adams. He declared that Adams was murdered and was not a suicide. In opening the case the coroner reiterated this statement to the jury, but there was not a scintilla of evidence to bear it out. Without leaving their seats the jury returned their verdict.

After the jury had returned its verdict Mr. Stokes and Coroner Harburger apologized to each other and shook hands.

Vigilance Committees Formed.

Aurora, Ill., Oct. 9.—Vigilance committees were formed today to inflict vengeance upon the assailants of Josephine Frank, 16 years old, daughter of Samuel Frank. The girl was kidnapped by two men, held a prisoner on a deserted island in the Fox river, for hours, brutally attacked and released when dying. When the story became known angry groups gathered, and it is feared, an attack will be made upon the Hungarian settlement on the bank of the Fox river.

Strike of Machinists.

As was stated in the Gazette of that day all the machinists and their apprentices in the Southern Railway shops in this city went out on a strike at 11 o'clock yesterday. The strike extends throughout the entire system, and as a result at least 850 men are idle. The machinists asked for an increase of two cents per hour and a nine hour day. The company at the time the demand was made signified its willingness to grant an increase of 1½ cents an hour at certain points on the road. The machinists refused to accept this, and on September 26 a strike was ordered, but action was deferred, with a hope of settlement. P. J. Colon, as acting president of the International Association, yesterday morning ordered the men to lay down their tools.

All the Southern Railway machinists at Atlanta, Selma, Ala., Birmingham, Ala, Knoxville, Tenn., Spartanburg, Columbia and Charleston, S. C., and Spencer, N. C., went out upon receiving telegraphic orders to do so.

Discussing the strike Mr. A. Stewart, mechanical superintendent of the Southern Railway, said yesterday in Washington.

"The basis of machinists' wages paid by the Southern Railway Company is substantially standard in the South. The machinists have argued that the increase in the cost of living shown by Government statistics and by their own experience justifies them in expecting a higher basis of wages, but it has been shown that during that period the company has increased the machinists' wages in about the same proportion. What the machinists want now, on their own statement, is an opportunity to lay up some money, or to have more money to spend. The management is, of course, most anxious to have all classes of its employes prosperous and is ready and willing to make this possible when it can be done in justice to all classes alike and to the property. It has been shown to the machinists that while the earnings from the property have constantly increased in recent years, the expenses of operation have increased in greater proportion, with the result that the company is not now in a better position to increase wages generally than it has been at any time within the last few years. At the recent conference with the machinists' committee the management has offered to increase wages so as to do away with inequalities in the wage scale wherever such inequalities have been found to exist.

At a meeting this morning of W. R. Hearst Lodge, No 580, International Association of Machinists, held in this city this morning, the following resolution was adopted:

Resolved, That we, the International Association of Machinists, do most strenuously deny the statement that we have been doing anything unbecoming gentlemen so far as doing damage to the Southern Railway Company or to endanger the life of employees.

The Tie-up of Steamers.

The official investigation by the Maryland Bureau of Statistics and Information into the causes leading up to the tie-up of steamers took place yesterday in the rooms of the bureau in the Equitable Building in Baltimore. Assistant Chief Jacob Schonfarber conducted the investigation upon the authority of Chief Charles J. Fox.

But two steamers of the tied up lines were able to move yesterday. The Tred Avon went out to Claiborne and the Avalon to the Chaptank with freight.

Capt. H. S. Bohannon, of the steamer Calvert, said he was not a captain the whole year, but declared he only got $60 a month and his board on the ship. He said he signed the petition because he could not keep his family on his salary.

Capt. M. W. Gourley, of the steamer Middlesex, said Captain Thomas told him he would not accept his resignation or one from any of his officers, but would tie up the boats if it cost $10,000.

Capt. J. T. Smith, of the steamer Northumberland, and Capt. A. M. Long of the steamer Potomac, declared they thought they were still employes of their respective companies. Capt. Smith said he handed the boat's papers to Superintendent Joynes, who told him to keep them. The last captain to testify during the morning session was Capt. W. G. Geoghegan, of the steamer Anne Arundel, the highest salaried officer called. He received $125 a month. He said he did not ask for more money, because the request made by the captains only equaled his salary. There was no jealousy on his side, but he had been in the association since its formation and stuck to his comrades. He had never heard any protest against the association, except when Captain Thomson, on Oct. 1, declared it was beneath the dignity of a captain to belong to the same lodge as his mate.

Corporation Court.

[Judge L. C. Barley presiding.]

Com. vs. James Scanlon; indicted for attempted rape; jury and verdict of not guilty and prisoner discharged.

City Council vs. Susan C. Barker; decree directing a pro rata division of the taxes upon the property recently sold under decree of this court, the purchase price not amounting to a sufficient sum to pay in full the amount of city and State taxes.

The Court ordered a venire of forty-six to be summoned for Friday morning from which venire to secure a jury to try the case of Howard Banks indicted for the murder last week of Thomas Elzey.

Fire Last Night.

The alarm of fire at 9:40 o'clock last night was caused by the discovery of a blaze in a small frame house on the west side of Fayette street, between Cameron and Queen. The roof of the house was considerably damaged before the firemen subdued the flames. The house was occupied by colored people.

Some vandal amused himself last night by cutting the ropes of awnings on King street, west of Washington.

Funerals.

The funeral of the late Mrs. Mary E. Carter, wife of Mr. Freeling Carter, who died at her home, 510 south Alfred street, Sunday morning, took place from the residence this afternoon at 3 o'clock. The services were conducted by Rev. Mr. Ewell.

The funeral of the late David A. Brown, took place this afternoon from the residence of Mr. Geo. Brown, 107 north Royal street. The services were conducted by Rev. Edgar Carpenter. The pallbearers were Messrs. Harry Downham, Wm Wildt, C. M Schwab, Wm. Murray, Jno. B. Laphen, and George Cogan. The interment was in St. Paul's cemetery

The funeral of Eliza Lucille, daughter of William and Isabella Hamersley, took place this afternoon from the residence, corner of Cameron and Henry streets. The services were conducted by Rev. Mr. Ewell.

The funeral of John, the infant son of Mr. and Mrs. W. B. Nowlin, took place from his parents' residence, 1422 Duke street, this afternoon. Rev. Mr. Ewell conducted the services.

The funeral of Lue Duckett, colored, who died suddenly Sunday evening, took place from St. Mary's Church this morning. Rev. Father Kelly conducted the services.

Suspected of Robbing Cars.

Chief Goods and Policemen Roberts, Garvey, Gill, Bell, Ferguson and Young early last night arrested Edward Waters, Walter Smith, Wilbur Cook, Edward Maples, and Albert Green, the later a colored man, on suspicion of robbing freight cars in the Southern Railway yards. The officers also recovered a number of overcoats and hats, several bolts of silk, and some sole leather from houses in the northeastern section of the city, property which is believed to have been taken from cars that were being shifted near the W. & O. R. R. yard in the northeastern section of the city.

The prisoners were brought before Justice Caton in the Police Court this morning, when Smith was released, but the others were held for ten days, when the case will be again called. Commonwealth's Attorney Brent was present to conduct the prosecution, and Mr. L. H. Machen appeared for the prisoners.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

Edward Waters, Albert Green, Wilbur Cook, Lawrence Pettey and Edward Maples, arrested by Chief Goods and Officers Roberts, Young, Garvey, Bell and Ferguson on suspicion of robbing cars of the Southern Railway Company, had their cases continued for ten days Walter Smith, arrested with the above, was released.

William Jackson, arrested by Officer Henderson as a suspicious character, was dismissed.

A young man, arrested by Officer Gill for disorderly conduct, forfeited his collateral by failing to appear.

George McKenzie and William Malone, arrested by Officer Henderson for disorderly conduct, were dismissed.

Scanlon Acquitted.

In the Corporation Court last night a jury, at the end of twelve minutes' deliberation returned a verdict of not guilty on an indictment charging James Scanlon with breaking into and entering the residence of Mrs. Mary V. Travers and attempting to commit a felonious assault upon her daughter, Edith Travers. Scanlon's father, mother and sisters were present, and the scene after the verdict was rendered was touching. A large crowd was present. Scanlon was accused of having entered Mrs. Travers' residence about 2 o'clock on the morning of June 21 last, by climbing to the roof of a shed, upon which the window of a room occupied by two of Mrs. Travers' daughters opened. Scanlon was represented by Attorneys C. C. Carlin and Lewis H. Machen. State's Attorney S. G. Brent conducted the prosecution.

Foreman Killed.

Foreman Eubanks, for Lane Brothers, railroad contractors, at Lexington, N. C., was shot and instantly killed Sunday night by a negro named Oscar Gadky. A crowd of negroes were shooting and creating a disturbance in the camp about nightfall when Eubanks went out to stop the noise. Coddi drew a revolver and deliberately shot him down. The murderer escaped bare foot and without a coat. Bloodhounds followed the trail. Lane Brothers built the new railroad lines near this city. A dispatch from Charlotte, N. C., the race clash following the killing of Foreman Eubanks Sunday by Oscar Gadky, was intensified yesterday by the threat of another negro in the employ of the railroad to kill Foreman Butler.

Death of Mrs Howland.

Mrs. Rachel Howland, wife of Mr. Harrison Howland, of King George county, died on Thursday at their home near Edge Hill. She had been in delicate health for a number of years. Before her marriage she was Miss Rachel Berry, of Alexandria, and her family is well known in this city. About twenty years ago she married Mr. Howland and went to King George to reside. She was a member of the Episcopal Church, and was about fifty-five years old. Besides her husband she leaves a large circle of relatives to mourn their loss.

Virginia Alumni Organise.

Local alumni of the Theological Seminary of Virginia, Alexandria, met yesterday morning at Grace Episcopal Parish House, Baltimore, and organized an association. There were 19 alumni present. Rev. Peregrine Wroth was elected temporary chairman and Rev. H. B. Lee, jr., temporary secretary until the annual meeting in November, when permanent officers will be elected.

Opera House.

"The Penalty of Pride," a story of the South before the war, was presented at the Opera House last night by the Corinne Runkel Stock Company before the largest audience of the season, standing room being at a premium. The play, which was a four act melodrama, was delightfully presented by the company. Miss Corinne Runkel scored the hit of the evening in the part of Leota Grove, her acting in the last act being decidedly clever The other parts were all well taken. The specialties were again of a high order. Tonight the company will present by request the success of the season, "The Shadow," a stirring melodrama containing excellent climaxes. New specialties will be introduced between the acts, including the famous Breton-Runkel Trio. Tomorrow night "In the Tiger's Den," a detective melodrama, will be presented.

People living in the vicinity of Wilkes and Henry streets complain of the disturbed condition of the sidewalk at the northeast corner. A pump was put there recently, but, for some reason, the sidewalk was left in an unsatisfactory condition, and pedestrians have recently had falls while passing the corner at night.

Ring and Watch Found.

After lying at the bottom of the Potomac river for ten years, a ring, which had plighted fidelity at two weddings and which had been dropped from the steamer Sam'l J. Pentz, by Mrs. Clement C. Hipkins, of Washington, has been recovered. The ring was highly prized by Mr. Hipkins, as it had been used at the wedding of his first wife, and also at that of his second. The ring which was of 18-karat, and a lady's gold hunting-case watch were scooped up several days ago by the suction pipe of a dredging barge a short distance north of this city.

UNDERWEAR.

Skin Thoroughly Protected. Breathe Freely.

Abrupt and unexpected changes in the weather are now in progress. A freezing night is apt to follow an Indian summer day. At such a season of the year it is virtually important that the body be given proper protection especially is this true in the matter of underwear. Heavy outside clothing is of practically no avail, if the clothing next to the skin, if the underwear is not of the proper kind. The rules of health demand at this season of the year that the skin in addition to being thoroughly protected, should be allowed to breath freely. Our underwear combines these two most important features, and we are showing many different styles in Union and Two-piece suits for the whole family. Remember, a word of advice in time is worth much useless advice when it is too late. Now is the time to buy

The Blind Historian.

William Hickling Prescott, who was born at Salem, Mass., on the 4th of May, 1796, was the son of a prosperous lawyer, entered Harvard college in 1811 and graduated in 1814. Early in his college career he had his left eye blinded by a piece of bread playfully thrown at him by a fellow student, and the other eye soon became sympathetically affected. He traveled in England, France and Italy and then devoted himself to severe study, but it was not till the beginning of 1826 that he found the work of his life within the range of Spanish history. Fortunately his means were ample, so that he was able to procure the services of assistants and to live amid conditions of comfort. By constant habit he gained the power of carrying a great deal in his memory, and after he had revolved the whole of a chapter in his mind he quickly transferred it to paper by means of his stylus and an ingenious writing case especially constructed for the blind. He published his "History of Ferdinand and Isabella" in 1838, which carried his name across the ocean to the old world. This was followed by his "History of the Conquest of Mexico" in 1843, and of "Peru" in 1847. These gave him a great reputation.

A Fruitarian Diet.

A fruitarian diet consists of the fruits of trees (like apples, oranges, bananas and olives), the fruits of bushes (like currants and raspberries), the fruits of plants (like strawberries and melon, lentils and beans and cucumbers), the fruits of grasses (like wheat and barley and maize and oats), the fruits of nut trees (from filbert to cocoanut), together with some earth fruits (like potatoes), and a modicum of vegetables and salads. To these may be added butter, milk, honey and cheese, although their production is not so free from risk of contamination and animal infection as is the case with the products of the vegetable kingdom and the world of fruits. Grown under healthy conditions, with diseased specimens easy to detect and remove, it is far more possible to live healthily and well upon a fruitarian dietary than upon the products of the slaughter house.

Making It Plain.

In the lower Amazon country the temperature ranges about 87 degrees in the shade all the year round, says the author of "Ten Thousand Miles In a Yacht." At Manaos, 1,000 miles up the river, the temperature is six or eight degrees higher. Thermometers are little used in that country and little understood. So when a yachtsman returned down river and was asked by an official at Para, "How is the temperature at Manaos?" his reply, "Eight degrees hotter than here," elicited a stare of noncomprehension.

"At Manaos," said the yachtsman in explanation, "I used to wilt six collars a day; here in Para I only need three a day."

This was perfectly clear to the Brazilian, whose face lighted with understanding.

The Arab War Chant.

Captain Von Herbert describes how the sacred chant was sung by Osman Pasha's force in that last dreadful sortie from Plevna. He knows, for, as he says, "as a youngster of seventeen, being then in the Turkish service, I took part in the charge." It is a solemn four part chant for deep male voices, with intervals, the melody recurring again and again, of alternating harmonies hummed almost pianissimo, to the words "Alla Akbar," and then again rising "to a great outburst on the fifth note." There is more than a suggestion of plain song, that song which drifted westward from the east.—Pall Mall Gazette.

A Bad Break.

At a banquet held in a room, the walls of which were adorned with many beautiful paintings, a well known college president was called upon to respond to a toast. In the course of his remarks, wishing to pay a compliment to the ladies present and designating the paintings with one of his characteristic gestures, he said, "What need is there of these painted beauties when we have so many with us at the table?"

Women Writers.

We know a number of women writers, and many of them are very good looking—much better looking, at any rate, than men writers, whose appearance is very seldom as attractive as their works.—Academy.

There are some minds like either convex or concave mirrors, which represent objects such as they receive them, but they never receive them as they are.—Joubert.

Alfred de Musset once said, "None laugh better and oftener than a woman with fine teeth."

Go on and make errors and fall and get up again. Only go on!—Brackett.

Is the Moon Inabited.

Science has proven that the moon has an atmosphere, which makes life in some form possible on that satelite; but not for human beings, who have a hard enough time on this earth of ours; especially those who don't know that Electric Bitters cure Headache, Biliousness, Malaria, Chills and Fever, Jaundice, Dyspepsia, Dizziness, Torpid Liver, Kidney complaints, General Debility and Female weakness.
